

Informed Consent for General Dental Procedures

You, the patient, have the right to accept or reject dental treatment recommended by your dentist. Prior to consenting to treatment, you should carefully consider the anticipated benefits and commonly known risks of the recommended procedure, alternative treatments, or the option of no treatment.

Do not consent to treatment unless and until you discuss potential benefits, risks, and complications with your dentist and all of your questions are answered. By consenting to the treatment, you are acknowledging your willingness to accept known risks and complication, no matter how slight the probability of occurrence.

It is very important that you provide your dentist with accurate information before, during, and after treatment. It is equally important that you follow your dentist's advice and recommendations regarding medication, pre and post treatment instructions, referrals to other dentists or specialists, and return for scheduled appointments. If you fail to follow the advice of your dentist, you may increase the chances of a poor outcome.

Appointment Cancellation Policy

Here at our dental practice we strive to provide the best quality oral health care for all of our patients. This requires a commitment and dedication to handle your care in as timely a manner as possible. In order to achieve this we must schedule appointments that accommodate the greatest number of patients each day. Without enough prior notice of a cancellation a patient in need may have to wait longer than necessary for an appointment. We fully understand that scheduling conflicts come up, but in order to keep up with the demand for appointments we have a cancellation policy that requires a minimum 48 hour notice for cancellations. We confirm appointments by email, phone and text which gives adequate opportunity to resolve any conflicts or reschedule if needed. Of course each situation will be considered individually, however a charge may be incurred when 48 hour notice is not given. We hope you can see how this will benefit all of our patients.
